Summary

Full-stack software engineer with 2+ years of experience (including freelance) owning the entire lifecycle of production web platforms, from frontend and backend development to database design, caching, CDN configuration, reverse proxying, deployment, scaling, and security. Currently building AI agents and automation systems that handle real operational work.

Technical Skills

Languages: TypeScript, JavaScript, Python, SQL, HTML, CSS

Frontend: React.js, Next.js, Tailwind CSS, shadcn/ui, Material UI, Docusaurus

Backend & Data: Node.js, NestJS, Prisma, PostgreSQL, MySQL, Redis, Supabase

DevOps & Tools: Git, GitHub, Nginx, Cloudflare, Vercel, Postman, Linux

AI: RAG Systems, AI Agents, MCP, Prompt Engineering

Currently Learning: Docker, Kubernetes, FastAPI, GitHub Actions

Professional Experience

Full-Stack Software Engineer Mar. 2025 – Present
Digital Information Systems Pvt. Ltd. (DIGINFO) Karachi, Pakistan (On-site)

- Architect and build centralized products, including dashboards, admin panels, and media applications, using Next.js, TypeScript, Node.js, and PostgreSQL.
- Own the full delivery cycle as a solo developer, from frontend and database design to integrations, deployment, and security.
- Deploy and operate production applications behind Cloudflare and Nginx.

Web Application Developer (Freelance) Nov. 2023 – Jun. 2025
Upwork Remote

- Delivered responsive websites and web applications for clients using Next.js, React, and TypeScript.
- Built an awards website (Hameed & Azra), a company website (NS Engineering Works), and an event registration platform with validated forms (Intellecta Genius Fest).

Frontend Developer Intern Aug. 2024 – Sep. 2024
YoungDev Remote

- Built responsive React interfaces with interactive components and animations.

Projects

DGMagazine | *Next.js, Node.js, Prisma, PostgreSQL* 2025
- Built a content management and publishing platform for a cyber intelligence magazine, with advanced search.
- Designed the backend APIs and database schema for efficient content storage and retrieval.
- Improved performance through caching and production deployment tuning.

DGEnterprise | *Next.js, TypeScript, Material UI* 2025
- Developed a business application with secure authentication, profile management, and analytics modules.
- Implemented Single Sign-On (SSO), payment gateway integrations, and database-driven workflows.

Autoverse | *React, JavaScript, Python, RAG, Agentic AI* 2026
- Built a reusable RAG-powered npm package that adds a conversational shopping assistant to applications.
- Implemented document retrieval, context-aware responses, and agent-driven task execution in a modular, extensible architecture.

Personal AI Employee | *Python, AI Agents, Obsidian* 2026
- Built an automation agent for scheduling, information retrieval, and productivity workflows.
- Implemented reusable agent skills, memory management, and task orchestration. Published on GitHub.

Education

Bachelor of Science in Computer Science 2021 – 2026
Iqra University Karachi, Pakistan

Certifications & Training

Cloud Applied Agentic AI Engineer Program Feb. 2024 – Present
GIAIC (in progress)

Agentic AI Architect Program Aug. 2026 – Present
Panaversity (in progress)

Secure Linux Training Program Dec. 2024
DGAcademy
